

Price changes from 1st April

From 1st April there are changes planned to leisure facility prices.

To ensure what you pay is fair across the East Riding Leisure and Sport facilities, the Council operate a standardised pricing i.e. the same price for the same activity.

This year the prices have increased by an average of between 3 & 5%. For some activities the price will not change, whilst for others the price will increase.

A Sure saver scheme is also available to customers on certain forms of benefits. This means whilst overall sports and leisure centre charges remain subsidised, concessions will be targeted at those with the least ability to pay.

A Leaflet explaining fully who is eligible, what it applies to and how concessions can be accessed is available from your local leisure centre.

Further information on all our leisure prices is available from your leisure centre reception.
